SECTION ONE: Position Description

Specialist Psychiatrist

Adult
MENTAL HEALTH AND ADDICTION SERVICES

Full-time: Permanent 1 Full Time Equivalent (FTE)
Location: Bay of Plenty DHB
Report to: Clinical Director, Mental Health and Addiction Services
SECTION TWO:

Description of Post

Specialist Psychiatrist: Adult Psychiatry

The appointee to this post will provide specialist input in the area of Adult Mental Health and Addictions, working both in the Acute Inpatient Service and with the designated multi-disciplinary Community Mental Health team.

The Bay of Plenty District Health Board (BOPDHB) provides mental health and addiction services for a population of 205,000. Three quarters of this population reside in the western BOP and one quarter in the eastern BOP. Western BOP Mental Health and Addiction Services are based in Tauranga on the campus of Tauranga Hospital. Eastern BOP Adult Mental Health and Addiction Services are based in the Whakatane CBD, with the inpatient service 3 km away at Whakatane Hospital.

In the Western BOP, Adult Community Mental Health and Addiction Services are delivered by two teams of equivalent size, one of which services the northern BOP and the other providing service for the southern BOP. Each of the teams has three psychiatrists who work collaboratively. The psychiatrists work across the community and inpatient services and work is distributed using a geographical model. This means that a patient is seen in the majority of cases by the same psychiatrist in the inpatient and community settings. The psychiatrists provide clinical leadership for the multidisciplinary community teams and work in partnership with the team leader.

In the Eastern BOP, Adult Community Mental Health and Addiction Services are also delivered by two teams each of which has one psychiatrist. The psychiatrists in the eastern BOP work with the same model across the community and inpatient service described above. Work is also distributed using a geographical model.

The Adult inpatient service has 34 beds of which 10 are located in Whakatane and 24 in Tauranga. There are four intensive patient care beds in Tauranga and one in Whakatane. The inpatient service is managed by a clinical co-ordinator. There are two team leaders in the Tauranga service and one in the Whakatane service.

BOP DHB has a local branch of the RANZCP (Royal Australian and New Zealand College of Psychiatrists) Upper Central North Island training programme (UCNI). All psychiatry registrar runs are accredited for basic training. Advanced training has been accredited in older persons, adult and child and adolescent psychiatry. There are up to eight registrars working in the service.

The community mental health and addiction teams are multi-disciplinary teams which generally consist of Psychiatrist, Registrar, Clinical Psychologist(s), Nurses, Social Worker, Occupational Therapist and Team Leader. There is an after hours service and acute service based in Tauranga and in Whakatane.

Adult Mental health and Addiction services are moving towards a more collaborative model of care. At present the addiction services are delivered in the Western BOP by a specialist addictions service.

In addition to the adult mental health services, BOP DHB provides specialist services for children and young people (CAMHS), older people (MHSOP) and Consultation Liaison Psychiatry (CL). Afterhours the psychiatrist on call may be required to provide assessments and oversight of treatment for patients in these services.
On-call Duties:

The role required participation in the general psychiatry on-call roster. A separate roster operates for the western and eastern BOP. In the western BOP psychiatrists work a roster which is about 1:8. The on call role is supported by an on duty registrar role until midnight and a 24/7 staffed on duty acute service. The afterhours work is usually light.

In Whakatane the after hours service has a single tier roster with psychiatrists or local GPs being on call 0800 - 0800. This roster is supported by an on call service with two staff members available for duty.

The appointee will be part of the Adult Mental Health and Addiction Service. The management and administrative support for the psychiatrist roles is provided from within this service.

The appointee will have the support of the Clinical Co-ordinator for Adult CMH and a sector Team Leader in CMH. There will also be the support from the Clinical Director. The post-holder will be encouraged to develop a mentoring relationship with a senior colleague in mental health. The service has a model of clinical partnership which requires the Clinical Co-ordinator to work in partnership with the Consultant. This model is reflected in the senior management structure, ie; General Manager and Clinical Director.

Functional Relationships

PART 2:

### Specific Responsibilities as a Consultant Psychiatrist

#### Clinical Responsibilities

To provide high quality assessment and treatment services within a multidisciplinary team, that are culturally appropriate and in accordance with professional standards and ethics and organisational policy and procedures.

- Provide high quality assessment, formulation and management for clients seen in clinical practice.
- Comprehensive assessments, treatment goals, psychiatric formulations, diagnoses, ongoing measures and progress notes are clearly documented.
- Works from a collaborative model with client and informed consent is evident.
- Encourages involvement of family/whanau of the care of clients/tangata whaiora.
- Progress is evaluated against agreed treatment goals, and care plans are updated.
- To be accessible by and available for clients in accordance with the principles of good clinical management.
- Is available for, and works within a multidisciplinary team to maximize treatment efficiency and sharing of skills.
- To actively liaise with other medical or clinical staff, agencies or organisations involved in the delivery of care to clients.
- To involve Maori health services where appropriate in the management of tangata whaiora.

#### Cultural Practice

Work in accordance with the principles of the Treaty of Waitangi (Tiriti o Waitangi), and safe cultural clinical practice and respect.

- To embrace working in partnership with Māori
- Demonstrate sensitivity to Maori cultural values in clinical assessments and interventions, and in dealing with the families/whanau and support workers of Maori clients.
- To practice in keeping with a respect for the cultural values of other ethnicities such as Pacific Island and Asian groups.
- Attends relevant training in relation to Treaty of Waitangi/bi-cultural perspectives.
<table>
<thead>
<tr>
<th>Team Responsibility</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>To work as part of the team in the Clinical service, supporting a multidisciplinary approach and environment, and contributing psychiatric/medical expertise to the team.</strong></td>
</tr>
<tr>
<td>» To provide a specialist psychiatric perspective in the multi-disciplinary team.</td>
</tr>
<tr>
<td>» To be available for members of the Multi-disciplinary team in the management of more complex clinical, legal or social cases, and to offer leadership in this situation when requested.</td>
</tr>
<tr>
<td>» To assist and support the general clinical standards in the team.</td>
</tr>
<tr>
<td>» To work with other members of the Multi-disciplinary Team in the resolution of identified problems or issues creating an impediment to quality clinical practice or team function.</td>
</tr>
</tbody>
</table>

**To work with other specialist Psychiatrists in the maintenance of clinical services and working environment in the DHB.**

| » To offer and provide support, advice or opinion when required or requested by specialist colleagues. |
| » To contribute to cover for colleagues leave or absence, in a manner which is fair and equitable. |
| » To provide supervision or oversight or mentoring for colleagues where appropriate. |

**Co-operate with other sub-specialty colleagues from across the Midland Region where appropriate.**

| » To contribute to regional fora and meetings with psychiatrist colleagues from the same sub-specialty to further regional co-operation and service initiatives, and consider service gaps in the region. |
SECTION FOUR:

NON-CLINICAL RESPONSIBILITIES:

The Specialist Psychiatrist appointed to the post will have a number of non-clinical duties. Non-clinical activities include a number of different responsibilities which are essential tasks but not direct patient care. Non clinical duties may comprise up to 30% of the time available for this role.

Supervision of a registrar is an important role of any Specialist Psychiatrist. This involves at least one hour face-to-face supervision/teaching per week, and further clinical supervision in accordance with the training requirements of the registrar as laid down by the RANZCP. Consultants have an important role in providing teaching and education sessions for the registrar training programme, for medical staff and other clinical staff in the DHB.

Every medical specialist is required to maintain their professional standards by participation in Continuing Medical Education, peer review and attendance at conferences or meetings. They also need to undergo credentialing by the Bay of Plenty DHB Credentialing Committee in order to confirm their scope of practice. This needs to before an appointment is confirmed and then approximately every five years.

Specialist Psychiatrists have a critical role in promoting quality of service delivery to those clients served by the service.

Non clinical duties may include the following:
- Supervision and oversight of others, in particular a Registrar
- Continuing Medical Education and professional self development
- Quality assurance activities
- Teaching and Grand Round presentations
- Credentialing
- Participation in service development
- Contribution to Sentinel event investigations

Administrative Responsibilities

Complies with organisational policies and procedures.
- Ensure that record keeping, and the record keeping of others working under the employee’s general direction meets required legal and policy standards.
- To participate in performance appraisals on an annual basis, and other reviews of practice where necessary.
- Maintain records of supervision and oversight where necessary for RANZCP or NZ Medical Council.
- Maintain accurate records of CME
### Legal Responsibilities

**To work within the requirements of all relevant legislation.**

- To act as a Responsible Clinician as defined by the Mental Health Act.
- To have an excellent understanding of the Mental Health (Compulsory Assessment and Treatment) Act 1992.
- To contribute to the education and understanding of other staff in relation to the Mental Health Act.
- Maintain and protect confidentiality, right of access and sharing of information in keeping with the Privacy Act.
- To have excellent knowledge of PPPR and EPoA.
- Provide appropriate medical reports to the courts, coroner, Police, Ministry of Transport, LTSA and lawyers as required by law, in keeping with the principles of the Privacy Act.
- To meet the requirements of practice and conduct consistent with the provisions of the Health Practitioners Competence Assurance Act.

### Teaching/Education Responsibilities

**To contribute to the development of staff skills and training through provision of education and supervision**

- To undertake direct, and informal, registrar supervision and teaching.
- To maintain and ensure eligibility and competence as a supervisor as per RANZCP requirements.
- To provide advice and education for other members of the multi-disciplinary team.
- To participate in and contribute to DHB and non-DHB education programmes.
- To support research initiatives.
Professional Standards

To regularly review, and ensure the maintenance of personal professional and clinical standards of practice.

» To participate in peer review activities consistent with RANZCP Continuing Professional Development Programme guidelines.

» To ensure an appropriate level of personal continuing medical education through reading, participating in meetings and attending conferences.

» To provide evidence of continuing education activities as part of the annual performance review.

» To meet and adhere to DHB policies regarding required core competencies such as CPR.

Quality Assurance Activities

To actively participate in quality improvement initiatives (within the team, within your own discipline and within the wider service/organisation) as is reasonable and within negotiated timeframes.

» To support the quality assurance activities of the team and actively contribute to the identification of needed improvements in current service provision, and strategies for introducing these.

» To work towards ensuring that personal practice and service provision meet the requirements of the National Mental Health Sector Standards.

» To actively contribute to risk minimisation activities within the service.

» To contribute to the clinical committees of the BOP DHB and any national/regional/local projects which are relevant according to expertise, interest and availability.

» To participate in audits and monitoring of clinical service delivery and performance, such as service KPIs and HoNOS

» To co-operate with the investigation of and implementation of recommendations from any complaint or similar process.
SECTION FIVE:

Clinical Leadership:

Specialist Psychiatrists are expected to fulfil a clinical leadership role within the service in which they are working.

The role involves providing leadership within the multi-disciplinary team in a clinical sense, but also includes a role in service planning, recruitment (where appropriate) and liaising with management and other services.

<table>
<thead>
<tr>
<th>Clinical Leadership</th>
</tr>
</thead>
<tbody>
<tr>
<td>Contribute as leader of the Clinical team, in partnership with the Team Leaders/Clinical Coordinator/CD for Adult Mental Health, to the development of the service and to safe and high quality mental health and addiction services.</td>
</tr>
<tr>
<td>» To participate and contribute in the development and implementation of strategic and service planning for Adult Sub-specialty Psychiatry and Addictions, and to provide clinical direction in planning for these services.</td>
</tr>
<tr>
<td>» To provide, in partnership with the Team leaders/Clinical Coordinator/CD, a shared vision and to provide clinical leadership, guidance, and support to direct reports, staff, peers within Mental Health Services, and to internal/external key stakeholders.</td>
</tr>
<tr>
<td>» To work with Adult Mental Health Services Clinical Co-ordinator and Team Leaders, and with the Clinical Director and Business Leader, Mental Health and Addictions, to ensure clinical staffing is appropriately skilled, selected, and retained.</td>
</tr>
<tr>
<td>» To contribute to protocols and guidelines operating in the two services to allow for clear definition of the service role and the interactions with other services within Mental Health and Addictions.</td>
</tr>
</tbody>
</table>
SECTION SIX:

Average Weekly Timetable:

> The following applies to a full-time 1.0FTE position
> Ordinary hours of work will fall between the hours of 0800 and 1700 on week days.
> The appointee is expected to work eight hours a day and be on duty from 0800. The job sizing is for 80 hours a fortnight.

A suggested timetable is as follows:

<table>
<thead>
<tr>
<th></th>
<th>Monday</th>
<th>Tuesday</th>
<th>Wednesday</th>
<th>Thursday</th>
<th>Friday</th>
</tr>
</thead>
<tbody>
<tr>
<td>Morning</td>
<td>Ward reviews</td>
<td>Ward reviews Clinic</td>
<td>Ward reviews</td>
<td>Ward reviews Judicial hearings,</td>
<td>Ward reviews</td>
</tr>
<tr>
<td>Lunch</td>
<td>Journal Club</td>
<td>Grand Round</td>
<td></td>
<td>Psychiatrist &amp; Psychologists meeting</td>
<td></td>
</tr>
<tr>
<td>Afternoon</td>
<td>Urgent reviews, Admin</td>
<td>Peer review, SMO meeting, admin</td>
<td>Clinic</td>
<td>Clinic</td>
<td>Urgent reviews, Admin</td>
</tr>
</tbody>
</table>

The above timetable is flexible. There are generally three set clinics with the capacity to see urgent cases built into the work schedule. The ward prefers that in patients are reviewed in the morning as discharges are requested to be arranged before lunchtime. Regular education meetings are timetabled and some administration time is included. Judicial hearings are fortnightly and the psychiatrist is required to attend. On Tuesday afternoons peer review meetings alternate with SMO business meetings, the meetings averaging 1.5 to 2 hours. This timetable is likely to be altered by the post-holder depending on the commitments of other staff and the evolution of the services.
